DISCLAIMER: This information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process. Such information is, to the best of the company's knowledge and belief, accurate and reliable as of the date indicated. However, no warranty guarantee or representation is made to its accuracy, reliability or completeness. It is the user's responsibility to satisfy himself as to the suitability of such information for his own particular use.

### **Distilled Witch Hazel Compliance Statement**

We hereby confirm that Distilled Witch Hazel is a natural botanical extract manufactured through a proprietary distillation process. The product is free from Phthalates and protamines. We can also confirm the absence of nanomaterials and 1,4 Dioxane. Palm oil is absent and is not used in any part of the production process. Witch Hazel has been independently tested to USP guidelines for elemental impurities, no detectable impurities have been found.

The product has never been tested on animals and no animal parts are used at any stage of the production. It is also BSE/TSE free and is acceptable for vegetarian and vegan use.

Witch Hazel is free of any restrictions imposed by CITES The product is free from any materials classified as CMR's and the product meets the requirements of the 7th amendment 76-768-EEC and is EU 1223/2009 compliant.

Hamamelis Virginiana is exempt from the requirements of REACH as a natural material. Alcohol/Ethanol has been registered under the auspices of the H&SE within the scope of REACH (see separate statement). It has been entered on the Cosmetic Product Notification Portal.

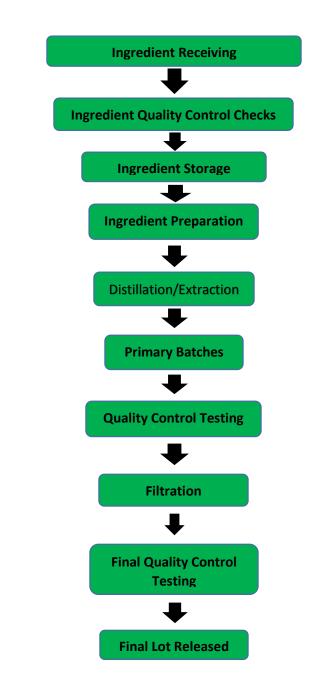

Our supplier holds a perpetual certificate from the State of Connecticut evidencing compliance with cGMP and compliance with CT State law regarding drug manufacture and free sale. The product is IECIC & MEP compliant for the USA, Canada & China. Additionally it is ASEAN compliant for Japan and South Korea.

Hamamalis Virginiana grows largely in woodland areas of New England USA. The areas of growth are certified as organic by Oregon Tilthe. This certification means there are no known or suspected sources of contamination in the land and surrounding areas. That includes pesticides, fertilisers, herbicides, fungicides and insecticides and none of these materials can affect the harvest. Witch Hazel contains no GMO's.

The product is not manufactured using solvents or any materials that contain metal catalysts and metal reagents nor does it come into contact with any in manufacturing, packing, storing or shipping. Hence it is free of residual solvents, metal catalysts and metal reagents, it is gluten free and free of nuts. It is also free of Poly Aromatic Hydrocarbons and Benzopyrene.

#### **05. FIRE-FIGHTING MEASURES**

| 5:1 - Extinguishing Media                    |   |
|--|---|
| Suitable extinguishing Media                 | Water spray, fog or mist, foam, dry chemicals, sand, dolomite,<br>etc. Fire can be extinguished using: Foam, carbon dioxide or dry<br>powder. |
| Unsuitable extinguishing Media-DO<br>NOT USE | Non specified   |

| 5:2 - Special Hazards arising from substance or mixture |   |  |
|---|---|--|
| Specific hazards  | May explode when heated or when exposed to flames or sparks.<br>May react with oxidizing materials. Carbon oxides, may produce<br>hydrocarbon fumes.  |  |
| 5:3 – Advice for firefighters                           |   |  |
| Special firefighting procedures/<br>protective actions. | Special Precautions for Fire-Fighters: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Cool containers exposed to flames with water from the side until well after the fire is out. Move container from fire area if it can be done without risk. Special Protective Equipment for Fire-Fighters: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. |  |

#### **06. ACCIDENTAL RELEASE MEASURES**

| 6:1 - Personal Precautions, protectiv | e equipment and emergency procedures.  |
|---------------------------------------|--|
| Personal precautions                  | Avoid breathing vapours, mist or gas. Ventilate area of leak or<br>spill. Remove all sources of ignition. Wear appropriate personal<br>protective equipment as specified in Section 8. Isolate hazard<br>area. Keep unnecessary and unprotected personnel from<br>entering. Use protective gloves, goggles and suitable protective<br>clothing. In case of spills, beware of slippery floors and surfaces. |
| 6:2 - Environmental Precautions       |  |
| Environmental Precautions             | Do not flush large quantities into surface water or sanitary sewer<br>system. Prevent large quantities of product from entering drains.<br>For smaller quantities, drench with water making sure that<br>washings enter drain only when very dilute.   |
| 6:3 – Methods and materials for con   | tainment and cleaning up   |
| Spill Clean Up Methods                | Contain spill and pump into a suitable container. Flush area with copious amounts of water.  |
| 6:4 – Reference to other sections     |  |
| Reference to other sections           | Section 8 – Exposure controls/ personal protection for further<br>information on personal precautions,<br>Section 13 – Disposal considerations for further information on<br>waste treatment.  |

### **07. HANDLING AND STORAGE**

| 7:1 – Precautions for safe handling  |   |  |
|--------------------------------------|---|--|
| Usage precautions                    | Keep away from heat, sparks and open flame. Avoid acids,<br>moisture, and combustible materials. DO NOT SMOKE IN WORK<br>AREA! Eating, smoking and water fountains prohibited in<br>immediate work area. Always observe good personal hygiene<br>practices, especially when working with chemicals.   |  |
| 7:2 – Conditions for safe Storage in | cluding any incompatibilities   |  |
| Storage Precautions                  | Keep in cool, dry, ventilated storage and closed containers.<br>Store isolated from oxidizing materials. Store away from all sources<br>of ignition. Store in containers made of stainless steel, polyethylene<br>or glass. Do not store in contact with Iron, Aluminium, Zinc, Copper<br>or their alloys since Witch Hazel is particularly reactive with Iron.<br>Product will discolour if it comes in contact with Iron. |  |
| Suitable Packaging                   | No additional data available  |  |
| 7:3 – Specific end use (s)           |   |  |
| End Uses                             | Astringent/ Skin cleanser.  |  |

### **08. EXPOSURE CONTROLS/PERSONAL PROTECTION**

| 8:1 – Control parameters                           |  |            |               |                                  |
|--|--|------------|---------------|----------------------------------|
| Components with<br>workplace control<br>parameters | Ingredient   | CAS Number | Exposure      | Standard<br>Exposure<br>(15mins) |
|  | HAMAMELIS VIRGINIANA<br>WATER (Witch Hazel Distillate) | 84696-19-5 | Non specified | Non<br>specified                 |
|  | ETHANOL (Alcohol)<br>(Ethanol-Standard<br>USP)         | 64-17-5    | 1000 ppm      | Non<br>specified                 |
| 8:2 – Exposure controls                            |  |            |               |                                  |
| Protective<br>Equipment                            |  |            |               |                                  |

| Process<br>conditions           | Maintain eyewash fountain and quick-drench facilities in work area.  |
|---------------------------------|--|
| Engineering<br>Measures         | A system of local and / or general exhaust is recommended. Please refer to the ACGIH document, Industrial Ventilation, A Manual of Recommended Practices, most recent edition, for details.                                  |
| Respiratory<br>Equipment        | For emergencies or instances where the exposure levels are not known, use a full face positive pressure, air supplied respirator. WARNING: Air-purifying respirators do not protect workers in oxygen-deficient atmospheres. |
| Hand Protection                 | Use suitable protective gloves if risk of skin contact.  |
| Eye Protection                  | Use chemical safety goggles and / or a full face shield where splashing is possible.   |
| Other Protection                | No additional data available   |
| Hygiene<br>Measures             | No additional data available   |
| Personal protection             | No additional data available   |
| Skin protection                 | No additional data available   |
| Environmental exposure controls | No additional data available   |

### **09. PHYSICAL AND CHEMICAL PROPERTIES**

| 9:1 - Information on basic physical and chemical properties. |  |
|--|--|
| Appearance   | Liquid   |
| Colour   | Clear, Colourless                                    |
| Odour  | Characteristic                                       |
| рН   | 3.0-5.0  |
| Relative Density   | 0.976-0.982 @ 20 °C (BPC), 0.979-0.983 @ 25 °C (USP) |
| Flash Point (°C)   | 43.10  |
| Refractive Index   | No additional data available.                        |
| Melting Point (°C)   | No additional data available.                        |
| Boiling Point (°C)   | 88 760mmHg   |
| Vapour Pressure  | 18.75 @ 20°C   |
| mmHg   |  |
| Vapour Density (Air=1)                                       | 1.03   |

| Solubility in Water<br>@20°C | Very soluble in water         |
|------------------------------|-------------------------------|
| Auto-ignition                | No additional data available. |
| temperature (°C)             |                               |
| 9:2 - Other information      |                               |
| Other Information            | No additional data available. |

### **10. STABILITY AND REACTIVITY**

| 10:1- Reactivity                        |  |  |
|---|--|--|
| Reactivity                              | No additional data available.                                |  |
| 10:2 - Chemical stability               |  |  |
| Stability                               | Stable under the recommended handling and storage conditions |  |
| 10:3 - Possibility of hazardou          | us reactions   |  |
| Possible hazardous reactions            | May react with oxidizing materials                           |  |
| 10:4 - Conditions to avoid              |  |  |
| Conditions to Avoid                     | Avoid heat, flames and other sources of ignition             |  |
| 10:5 – Incompatible materials           |  |  |
| Incompatible materials                  | Iron, Aluminium, Zinc, Copper and their alloys.              |  |
| 10:6 - Hazardous Decomposition Products |  |  |
| Hazardous Decomposition<br>Products     | Carbon oxides, may produce hydrocarbon fumes                 |  |

### **11. TOXOLOGICAL INFORMATION**

| 11:1 Information | on toxicological effects  |              |                 |
|------------------|---|--------------|-----------------|
| Acute Toxicity   | Chemical Name   | Oral<br>LD50 | Inhalation LC50 |
|                  | HAMAMELIS VIRGINIANA WATER<br>(Witch Hazel Distillate) (84696-19-5) |              | None specified  |

|   | ETHANOL                                       | 20,000 ppm (10 hours – rat)  | 7060 mg/kg (rat)           |
|---|---|------------------------------|----------------------------|
|   | (Alcohol)<br>(Ethanol-Standard USP) (64-17-5) |                              |                            |
|   | No specific health warning noted.             | No specific symptoms not     | ted, but this material may |
|   | still have adverse health impact, e           | either general or on certain | individuals.               |
| Skin corrosion /<br>irritation          | None known                                    |                              |                            |
| Serious eye<br>damage /<br>irritation   | May cause irritation and redness              |                              |                            |
| Respiratory or<br>skin<br>sensitisation | No additional data available                  |                              |                            |
| Inhalation                              | May cause mild irritation of the th           | roat.                        |                            |
| Ingestion                               | May cause nausea                              |                              |                            |
| Germ Cell<br>Mutagenicity               | Salmonella Typhimurium Reverse                | e Mutation Assay             |                            |
| Carcinogenicity                         | None  |                              |                            |
| Reproductive<br>toxicity                | No additional data available.                 |                              |                            |
| STOT-single<br>exposure                 | No additional data available.                 |                              |                            |
| STOT-repeated<br>exposure               | No additional data available.                 |                              |                            |
| Aspiration<br>hazard                    | No additional data available.                 |                              |                            |

### **12. ECOLOGICAL INFORMATION**

12:1- Toxicity

| Ecotoxicity                  | No additional data available.  |  |
|------------------------------|--|--|
|                              |  |  |
| 12:2 - Persistence & degrada | bility   |  |
| Persistence & degradability  | Readily biodegradable  |  |
| 12:3 - Bioaccumulative Poter | itial  |  |
| Bioaccumulative Potential    | Low Bioaccumulative Potential (ethanol)  |  |
| 12:4 – Mobility in soil      |  |  |
| Mobility                     | The product contains substances which are insoluble in water and which may spread on water surfaces. |  |
| 12:5 – Results of PBT and v  | PvB assessment   |  |
| PBT Assessment Results       | PBT / vPvB assessment not available as chemical safety assessment not required / not conducted.      |  |
| 12:6 Other adverse effects   |  |  |
| Precautions                  | An environmental hazard cannot be excluded in the event of<br>unprofessional handling or disposal.   |  |

### **13. DISPOSAL CONSIDERATIONS**

| 13:1 Waste treatment methods |  |
|------------------------------|--|
| Disposal Methods             | Not a RCRA hazardous waste. Disposal of this material is not regulated under RCRA. Consult local regulations to ensure that this material and its containers are disposed of in compliance with all regulatory requirements. Processing, use or contamination of this product may change the waste management options. Dispose of container and unused contents in accordance with local requirements. |

#### **14. TRANSPORT INFORMATION**

| Warning Icon | <b>DOT</b> : Not regulated<br>Special provision 49 CFR 173.150 (e) – Aqueous solution containing greater<br>than 50% water and less than24% alcohol and no other hazardous material.           |
