04. FIRST AID MEASURES

4.1 Description of first aid measures	
Inhalation	Remove to fresh air immediately. Remain at rest, warm and in a position, which is comfortable for breathing. If the affected person has stopped breathing, perform artificial respiration. Seek immediate medical attention.
Ingestion	Never give anything by mouth to a person who is unconscious. Do NOT induce vomiting. If affected person is conscious, rise mouth thoroughly with clean water and move to fresh air. If discomfort occurs/continues, if large quantities have been ingested or if the affect person has become unconscious, seek medical attention.
Skin Contact	Remove contaminated clothing immediately and wash before reuse. Wash skin thoroughly with plenty of clean water. If discomfort occurs/continues, seek medical attention.
Eye Contact	Whilst lifting eyelids, thoroughly rinse eyes with clean water for a minimum of fifteen minutes. If safe to do so, remove contact lenses and continue to rinse. Seek immediate medical attention.

4.2 Most important symptoms and effects, both acute and delayed
Inhalation – May cause mild throat irritation. Ingestion – May cause nausea. Eye Contact – May cause irritation and redness.
4.3 Indication of any immediate medical attention and special treatment needed
Treat symptomatically.

05. FIRE-FIGHTING MEASURES

5.1 Extinguishing Media
Foam, Carbon Dioxide, Dry Chemical Powder
5.2 Special hazards arising from the product
May explode when heated or when exposed to flames or sparks. May react with oxidising agents. May generate oxides of carbon and hydrocarbon fumes in the event of fire.
5.3 Advice for firefighters
Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. Cool containers exposed to flames with water from the side until well after the fire is out. Move container from fire area if it can be done without risk. Wear self-contained, positive pressure respiratory equipment and appropriate protective clothing at all times.

06. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures
Avoid breathing vapours, mist or gas. Ventilate area of leak or spill. Remove all sources of ignition. Wear appropriate personal protective equipment as specified in Section 8. Isolate hazard area. Keep unnecessary and unprotected personnel from entering. Use protective gloves, goggles and suitable protective clothing. In case of spills, beware of slippery floors and surfaces.
6.2 Environmental Precautions
Do not flush large quantities into surface water or sanitary sewer system. Prevent large quantities of product from entering drains. For smaller quantities, drench with water making sure that washings enter drain only when very dilute.
6.3 Methods and material for containment and cleaning up.
Contain spill and pump into a suitable container. Flush area with copious amounts of water.
